

# Take the call with Eltropy Voice+

Level up your contact center experience.

Eltropy Voice+ is a future-ready AI-powered voice+digital conversation experience for credit unions & community banks that integrates traditional voice with a powerful unified conversations platform.

Enable Your **Members & Customers** access service Faster, Better, and On their terms.

## Lower Wait Time & Abandonment Rate

Off-load simple calls to AI Voice Virtual Agent and reduce the wait time without adding more member service representatives

## Reduce Call Volumes & Hold Times

Empower members with self-service AI chat & voice that allows them to potentially resolve issues on their own.

Make Your **Agents** feel Empowered, Equipped and Efficient.

## Increase First-Contact Resolution (FCR) Rate

Switch between channels while on call to allow for richer interactions and equip agents with the right information (AI knowledge assist) to resolve issues on first contact.

## Reduce Average Call Handle Time (AHT)

Use advanced features like co-browsing, smart routing, and AI-to-agent handoff with chat history to empower agents with faster problem-solving.

Empower Your **Executives** to Identify, Optimize, and Drive Growth.

## Optimize Contact Center Efficiency

Track key metrics in real-time and historically to identify and address bottlenecks proactively.

## Improve Member & Agent Satisfaction

Monitor agent performance and customer satisfaction levels (CSAT) to identify areas for improvement.

**and more!**

“Voice+ will dramatically improve the service we provide members. By allowing our agents to combine voice with digital channels like text, video, co-browsing, and AI assistance – we can resolve issues faster and more effectively in a single unified experience.”

**Howard Meller**  
President & CEO
